

BUILD RIGHT FROM THE START

April 1, 2004

Trussway Ltd. Fort Worth Facility

Trussway is very proud to announce its newest facility in Fort Worth, Texas located at 7001 Enterprise Avenue. This facility will replace the old location at 800 Gifford Hill Rd., Fort Worth Texas. We anticipate being fully operational March 31, 2004. Our new building is twice the size of our previous facility which enables us to further increase productivity of our quality structural building components.

Trussway strives to supply state of the art trusses and components to builders across America. Our commitment is to upgrade our facilities and keep up with the improvements and technologies to accommodate our customers needs. With strategic locations through out the United States, our team of professional's remains focused on meeting and exceeding our customer's expectations.
